EDITORIAL NOTES.

The Sacramento Bee says a case has come up before the Oakland Courts which presents a rather ludicrous side. It appears that some months ago a woman died there who was supposed to be poor. Afterward property was discovered to the amount of \$6,750, and now comes a doctor into Court with a bill for medical services rendered deceased amounting to just \$6,000, and another person presents a board-bill for \$150. It will be noticed that the demands are so nicely adjusted as to exactly absorb the decedent's estate. We were aware that it was a common thing for probate expenses, lawyers' fees, etc., to nearly eat up small estates, but this is the first instance that has come under our knowledge wherein the value of an estate was made to equalize, to a cent, the claims against it. Of course it was accidental, but how fortunate for that doctor that he had not made one visit too many, and for the hash-compiler that the poor woman did not live to eat another meal. Otherwise they would have been out and injured.

The report has gone out that Governor Kinkaid will not be before the Convention as a candidate for re-nomination. Whether this report was set afloat designedly or not, it is undoubtedly incorrect. The friends and partisans of the Governor are leaving no stone unturned to gain strength, and if the people do not desire the nomination they should make it known very emphatically. In order to gain their wishes something besides scolding is necessary. They must express their wishes very plainly to their delegates to the Convention.

The Enreka Leader truthfully says that if workmen as a body would manage their own affairs and not allow themselves to be controlled by demagogues, as they so frequently have been, there would be fewer strikes, less dissatisfaction and more money for themselves and families. The agitators are the mischief-makers. They have ever been, and in nine cases out of ten their counsel is mischievous and hurtful, both to employer and employees.

The ladies of Washington have formed a society for the purpose of gathering information concerning politicians who use their influence to obtain situations for improper persons. Secretary Lincoln has stated that women have been given sinecure clerkships, for immoral purposes. A committee on Congressional loquacity is in order.

The National Prohibitionists in Convention at Chicago have adopted a platform in which radical reform planks are laid down very close together. If they can obtain one quarter of the reforms they ask for this great and glorious country will become a political paradise.

The Treasury Department has issued circulars promulgating the law for deductions from the gross tonnage of American vessels and instructing collectors as to carrying it into effect, and for the regulation of immigration.

Bob Ingersoll, who does not believe in the Bible or in God, has at last found one thing he does believe in—of the innocence of the star routers—and he has to be hired to believe in that.

A committee is being formed in London to arrange for placing a bust of the poet Longfellow in Westminster Abbey.

The Egyptian war news sent to this coast is merely a chowder of meaningless odds and ends—trash, in fact.

The swimming contest for \$1,000 and the championship of the world, between Captain Webb and Thomas Bell, the champion short-distance swimmer of America, was won by Webb, at Boston.

The republic of Santo Domingo is quiet. President Merino has issued a decree granting general amnesty and leaving exiles to return. The term of the amnesty expires October 31. General Ulysses Heureux, elected President, has accepted the position.

Himalayas for Dorsey.

WASHINGTON, August 24.

In the star route case, McSweeney criticised the evidence for the prosecution in a sarcastic manner and concluded his argument as follows: And now be launched the little bark of his client, a man with noble soul, a tongue of truth a hand of charity. At the age of 18 he was ragged and barefooted in the ranks of his country, and at 21 had been breveted for bravery in the field. Did the jury think that a man wounded from head to foot in the service of his country, was a thief who would rob the Treasury of that country whose foundations he had helped to cement with his blood? He had risen up until he provoked enmity, until envy and jealousy made their stab at him. Dorsey found the lines of the poet true: "He who ascends to mountain tops shall find the lofty summit crowned with ice and snow, and who surpasses and subdues mankind must look down upon the hate of those below." He had been stabbed in the House. His friends had shoes not grown old that had often stamped their loud approval of Senator Dorsey, when the roar of calumny broke out against him. He was the peer in honesty and integrity of any man with whom he associated in the broad halls of his country's legislature. "And now," concluded McSweeney, "I cast his little bark, freighted with all he loves, upon the waves, his testimony guided by the juror's oath. I know it will reach shore and be forever anchored from the storm. I know, inspired by your verdict, he will look upon this persecution as a black cloud that has passed away. I believe the drooping flower that hangs by his side, will, when your inspiring verdict of 'not guilty,' comes in, lift her face to heaven again, and that she, too, will thank the cloud when it has passed away. Shadows of evening gather around me. I have said my say. I have spoken my farewell words, and with them so many thanks to you for your kind attention. I have done, completely done."

The Prohibitionists—They Adopt a Platform that Will Hasten the Millennium.

CHICAGO, August 24.

The National Prohibition Convention re-convened at 9 o'clock this morning. Additional States were represented and added to the rolls. A telegram of greeting was received from the Knights of Temperance in Atlanta. Reports were also received of the condition of temperance in various States and Territories. The platform was then read, which, with amendments adopted subsequently, is as follows, the planks having been discussed and amended separately:

First—The prohibition as a public crime of the importation, exportation, manufacture, sale, supply and taxation of all alcoholic beverages.

Second—The prohibition of all tax, license, regulation or legal sanction in any form of them or any other public crimes.

Third—Civil and political equality and enfranchisement of women. This, so far as it concerns the States severally is remitted to the party in those States.

Fourth—Abolition of polygamy.

Fifth—Abolition of executive, judicial and legislative patronage; the selection of all officers by the people, so far as practicable, and civil service reform in other appointments.

Sixth—Abolition of sinecures and unnecessary offices.

Seventh—The universal and enforced education of the youth of the nation, including instruction in regard to the effect of alcohol upon the human system, with ample provision for the support of an adequate and efficient system of free public schools in all the States and Territories.

Eighth—Preservation of public lands for homes of the people and their division in limited portions to actual settlers only.

Ninth—Abolition of all monopolies, class legislation and special privileges from the Government injurious to the equal rights of all citizens.

Tenth—The control of railroads and other corporations, to prevent abuse of power and protect the interests of labor and commerce.

Additional resolutions will be reported this afternoon. Singing the Doxology greeted the reading of the platform.

A large quantity of lumber and firewood is now going eastward.

J. F. Myers' name will be presented to the Republican Convention for the office of County Clerk. Johnny is favorably known by every man, woman and child in the county, and has a host of friends who are anxious to see him nominated. If the Republicans give him a place on the ticket he will poll a heavy vote and go to the front. Tax-payers know that the work in the Clerk's office would be faithfully performed if they give it to Mr. Myers to do. He has filled several positions, and has always given good satisfaction.

SENSITIVE DR. CLARK.

The Truth Slowly Coming Out—A Voice From the Stockton "Crazy Pen."

Dr. Clark, who had charge of Nevada's insane patients for several years, and received \$1 a day for each and every patient sent him from this State, is extremely sensitive now that Nevada has taken them away from him. He tells a Stockton *Mail* reporter that there was one male patient whom he should have discharged three or four days before the Nevada patients were taken away, but he held him in order that the unfortunate might take advantage of the half rate fare in going home to his friends in this State. The "three or four days" meant \$3 or \$4 paid to Dr. Clark. The truth is there were no less than six or eight patients who were as sane as they ever were when they arrived here from Stockton. How long they had been so no one but Dr. Clark knows.

We, the undersigned residents of Washoe county, State of Nevada, bind ourselves well and truly to pay the respective sums set opposite our names herein, and for the reasons and purposes and consideration hereinafter written, to-wit:

I. That the Truckee river is the great natural drain for the agricultural lands lying adjacent thereto, being situated in Truckee Meadows, county of Washoe, State of Nevada, and that any improvement in said natural drain will be greatly conducive to the improvement and proper cultivation of our said lands, as well as to the general health of our community.

II. That there now exists in said river an obstructing bar at a point about miles east of the town of Reno, and in the bed of said Truckee river, which causes the waters thereof to flow back upon certain agricultural land, and generally obstructs the natural drainage of and from our said lands, thereby depreciating in value our said lands and imperiling the health of the community.

III. That it is the purpose of the subscribers hereto, and the payments hereinafter agreed to be made, to remove the said obstructing bar, or to change the channel of said Truckee river, at the point above-named and designated commonly as "the mouth of the canyon," in order that all drainage waters and waters of irrigation from the said lands may have an unobstructed flow from, and over, or around, said bar, through the natural or artificial channel of said river towards Pyramid Lake.

IV. It is further understood that the sums hereto subscribed, and which we hereby agree to pay, shall be expended for the purpose herebefore written, and under the management of persons hereafter to be designated by choice of the parties whose names are hereto subscribed; and also, that the manner of payment of the various subscriptions hereto shall in like manner be determined by a public meeting of the subscribers hereto.

Truckee Items.

[From the Republican of the 23d.]

All the contractors around Lake Tahoe are doing well. Hank Martin has started a new logging camp. He has a contract for getting out 8,000 cords of wood and will finish it this month. Robert & Mariette at the foot of the lake, run up three hundred cords of wood daily.

The pay-car is expected here the latter part of this week.

The first load of wool from Sierra valley was brought to town yesterday. It was from a sheep ranch near Sierra.

There is a big demand for experienced lumbermen in this section. Bull-drivers, swamper, loggers, log-cutters, etc., can find work in the woods hereabouts at good wages.

The nights and mornings are cold enough to make a fire comfortable. It will soon be time for the Truckee to begin making arrangements for his Winter supply of wood.

A Folsom man twisted the tail of a vicious horse and got a pound or less of his cheek kicked off.

The Nevada Lumber Co.'s Mill.

A GAZETTE reporter in company with H. W. Bragg, drove out yesterday to Bragg & Schooling's new saw mill in Long valley. The firm has put up a very convenient little mill with a capacity of about 15,000 per day, in the timber about five miles west of Robert's farm house on the Long valley road. They intend to build a flume from the mill to the N. & O. railroad track, through which they will flume all the lumber they cut besides thousands of cords of wood. The mill is situated near the head of a canyon through which 50,000,000 feet of lumber and hundreds of thousands of cords of wood must come. They have things about the mill in good shape, and are selling a good deal of lumber. Work on the flume has been commenced and will be completed this fall. After the N. & O. railroad is ready to transport freight from that point to Reno, and their flume is completed, they can deliver wood and lumber at Reno for a very low figure.

More Fossil Tracks.

A correspondent of the Virginia Chronicle writes: "We are hearing a good deal about enormous tracks resembling human footprints being found at the prison. This reminds me of tracks, of immense size, of a split-hoofed animal, which were found about three miles south of Dayton in 1883 by parties working in what was known as Hussey's stone quarry, in a lime formation. The tracks, to the best of my recollection, measured about eleven inches in diameter. They attracted considerable attention at the time. M. W. Starling had one of the tracks blown out in a block and sent to the laboratory in Sacramento where, I suppose, it still remains."

For Road Supervisor.

A Thompson will be a candidate for Road Supervisor. Mr. Thompson can fill the office well, and if elected he will make one of the best roadmasters this county has ever had. Stand in with "Red Horse."

GOLD GALORE.

Wonderful Yield of a Pocket-Vein in Plumas County, Cal.

The recent strike at Eagle Gulch, says the *Greenville Bulletin*, is something so great that a bare statement of the facts would read like the wildest romance. One of the owners of the mine with a hammer and chisel cut out one solid lump of gold worth \$2,700. When the ledge was struck in the lower tunnel a man who was at work there was sent off some little distance on a message; during his absence his employer took out \$10,000. It is a common thing to find from two to three hundred dollars worth of gold in a single pan of dirt. The ledge is nearly 50 feet wide, all of which is good milling ore. The extremely rich vein is about 8 feet wide. This mine at Eagle Gulch is to-day the greatest mine in the State. To illustrate how fortunes are made and made in mining it may be stated that a short time ago a mine operator of great experience went and examined the property; it was offered to him for \$75,000 and he refused it; not long afterward that much could be taken out in a little more than a week.

Plumas Prospects.

From the *Greenville Bulletin* of the 23d it is learned that during the past week small patches of grain have been cut here and there through the valley, but on Monday morning most of the farmers started in to cut in good earnest. Beyond all doubt the grain crop will be short. Some weeks ago there was talk that the price during the coming season would be low, so much of last year's crop being yet on hand, but all that surplus has since been exhausted, and it is confidently believed that prices will be up to the average of the past season. The abundant hay crop induced a belief that hay would be sold at a low figure, but this also promises to be otherwise; the increasing cost of beef is making stock raising more profitable, and instead of selling their hay at low prices farmers are now buying stock cattle and will feed it to them, believing that in this way better profits will be realized.

The Runaway Recaptured.

Captain Mater, State Prison guard, came into Reno this morning in charge of the escaped convict, George H. Marsh, who lit out from the prison a few days ago and has since been wandering hither and yon, without, apparently, being able to make up his mind which way to go to escape the clutches of the law. Captain Mater got wind of Marsh's whereabouts a day or two ago, and on receiving a dispatch from a friend that a man answering the description of the escaped prisoner had been seen on the road between Tahoe and Truckee, he went to the latter place, and patrolled the road cautiously. Yesterday he met his man in the highway and "took him in." Marsh looked used up and dilapidated generally. He will now have to commence afresh on his sentence, and serve out the whole of his original time.

The Sunday School Picnic.

The children had a grand time yesterday, and many of the older persons had a good day's run. There were about three hundred at Steamboat. Nothing occurred to interfere with the pre-arranged programme. Mr. Moeller did all in his power to make the festival a thorough success. As one of the excursionists remarked, "he flung himself wide open to please the people." The price of baths was put down to 25 cents, so that all the juveniles might have opportunity to paddle in the rejuvenating waters of the springs. As a consequence, the swimming tank was filled all day with noisy youngsters, who made more noise than a school of sea lions. There was dancing in the pavilion and luncheon all around, and not a little billing and cooing going on. All who attended were well pleased, for it was a general good time.

Alleged Irregularities.

A Washington dispatch says reports have been received at the Treasury Department of startling irregularities in the accounts of James Crawford, Superintendent of the United States Mint at Carson City, Nevada, and an investigation will be made. It is understood that charges have been laid against Superintendent Crawford of the Carson Mint, but the nature of these charges is not disclosed. It is said an investigation will be ordered on the return of Buchard, the Director of the Mint.
